SUMMARY

Full Stack MERN Developer with hands-on experience building scalable web applications, RESTful APIs, authentication systems, and AI-powered solutions using MongoDB, Express.js, React.js, and Node.js. Developed multiple end-to-end projects involving AI integration, secure authentication, and payment processing. Solved 500+ Data Structures and Algorithms problems across LeetCode and GeeksforGeeks, demonstrating strong analytical and problem-solving skills.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, JavaScript, SQL

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design

Backend Development: Node.js, Express.js, RESTful APIs, JWT Authentication, Role-Based Access Control

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming

INTERNSHIP EXPERIENCE

Frontend Development & DSA Intern

Jun 2025 – Jul 2025

Roorkee Institute of Technology, Roorkee

- Developed a responsive Amazon Clone featuring product browsing, search functionality, navigation systems, and shopping cart workflows.
- Applied JavaScript, DOM manipulation, and event-driven programming techniques to create interactive user interfaces.
- Strengthened analytical and problem-solving abilities through intensive Data Structures and Algorithms training and coding practice.

PROJECTS

AI-Powered Full Stack Web Application

Jan 2026 – Mar 2026

MongoDB, Express.js, React.js, Node.js, OpenAI API, JWT, 2FA, Razorpay

- Engineered a full-stack MERN application integrating AI-powered search, chatbot assistance, and personalized recommendation features.
- Implemented JWT authentication and Two-Factor Authentication (2FA), enhancing account security and user verification.
- Integrated OpenAI APIs and Razorpay payment gateway to support AI-driven interactions and secure online transactions.
- Designed scalable RESTful APIs and optimized MongoDB queries to improve application performance and responsiveness.

SmartHire AI – Job Portal with AI Resume Matching

Apr 2026 – Jun 2026

MongoDB, Express.js, React.js, Node.js, JWT, PDF-Parser

- Developed a recruitment platform supporting Candidate, Recruiter, and Admin roles with role-based access control.
- Built AI-powered resume parsing and ATS scoring features to automate candidate profile evaluation and screening.
- Created recruiter dashboards for job posting, applicant tracking, and hiring workflow management.
- Enhanced platform efficiency through optimized APIs, secure authentication mechanisms, and streamlined database operations.

CERTIFICATIONS & ACHIEVEMENTS

- Solved 500+ Data Structures and Algorithms problems across LeetCode and GeeksforGeeks.
- Participated in QHackathon 2026 at Quantum University as a member of Team Code Orbit.
- Completed Summer Internship in Frontend Development and Data Structures & Algorithms at Roorkee Institute of Technology.
- Earned IIT Roorkee Certificate Program – Internet of Things: Concepts to Deployment.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science and Engineering

2024 – 2028

Roorkee Institute of Technology, Roorkee, Uttarakhand

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks.
